

As a pre-final year B.E. Computer Science Engineering student at Saveetha Engineering College, I have built a strong foundation in software engineering through hands-on development, problem-solving, and continuous learning. With experience in Full Stack Java Development using Java, Spring Boot, React, MySQL, and REST APIs, I enjoy transforming ideas into practical software solutions. I have strengthened my analytical thinking by solving 160+ LeetCode problems, won Hack Hustle 2.0 in the Logistics Do-main, and gained industry exposure through a Software Development Internship at Retech Solution Pvt. Ltd. Currently, I am learning Data Science from the fundamentals while improving my DSA skills, with a growing interest in Python, Data Analysis, and Machine Learning.

EDUCATION

2024 - Present	Saveetha Engineering College B.E Computer Science Engineering CGPA 9.38
2024	Chennai Higher Secondary School Higher Secondary Education (12th) – 92.67%
2022	St. Francis Savio Matriculation School Secondary Education (10th) – 84.8%

PROFILE HIGHLIGHTS

- Strong foundation in Full Stack Java Development
- Solved 160+ LeetCode problems
- Winner – Hack Hustle 2.0 (Logistics Domain)
- Software Development Internship experience
- Currently learning Data Science and Machine Learning
- Strong analytical and quantitative aptitude

SKILLS

Programming Languages:	Java, Python, C, C++, JavaScript, SQL
Full Stack:	Spring Boot, React, REST APIs, HTML, CSS, MySQL, Git, GitHub
Data Science:	NumPy, Pandas, Matplotlib, Scikit-learn, PyTorch, Jupyter Notebook
Core CS:	Data Structures & Algorithms, Object-Oriented Programming, DBMS,
	Operating Systems, Problem Solving
Tools:	VS Code, PyCharm, IntelliJ IDEA, Windows , Jupyter Notebook

INTERNSHIP

Software Development Intern - Retech Solution Pvt. Ltd.

- Contributed to application development, debugging, and backend implementation.
- Worked with Java-based applications and software development workflows.

CERTIFICATIONS & ACTIVITIES

- Oracle Java SE 21 Professional Certification
- C, C++, HTML, Python – NEON Computer Education

PROJECT EXPERIENCE

Student Registration System – Java, Spring Boot, MySQL, React; developed a full-stack application for managing student records and implemented CRUD operations with database connectivity.

Employee Management System – Java-based system for employee data, roles, and reporting.

Face Detection System – Python, OpenCV; developed a real-time face detection application using OpenCV.

ACHIEVEMENTS

- **Hackathon Winner** – Hack Hustle 2.0 (Logistics Domain) at SEC
- **Solved** 160+ LeetCode problems
- **Participated** in Hack with Chennai 2.0 (24-hour Hackathon)

EXTRA ACTIVITIES & INTERESTS

- Organized Face Detection using Python and OpenCV technical event
- Attended Mobile Synergy and Drone Technology workshops
- Industrial Visit – Space Zone India, Thaiyur (learned about rockets, satellites, and space technology)
- Solving LeetCode problems, Rubik's Cube, and reading books
